

Construction Update - August 30, 2024

STORM SEWER INSTALLATION CONTINUES

Over the last couple of weeks, the contractor continued storm sewer installation, working on the centerline of Arlington Heights Road. The storm sewer installation work has included:

- Timber Hill Road to Carlton Place - Completed!
- North of Carlton Place
- Laterals to the mainline just north of Brittany Lane - Completed!
- Lake Cook Road outfall and extended it halfway across Arlington Heights Road

This week, installation will continue north on the centerline of Arlington Heights Road towards Illinois Route 83. The contractor will also begin work at the sewer outfall on the east side of the road just south of Alden Lane.

Traffic remains in the two outside lanes with daily shifts as needed for the sewer work or utility relocation. Motorists should expect occasional stoppages of traffic flow when trucks are dumping or equipment is moving.

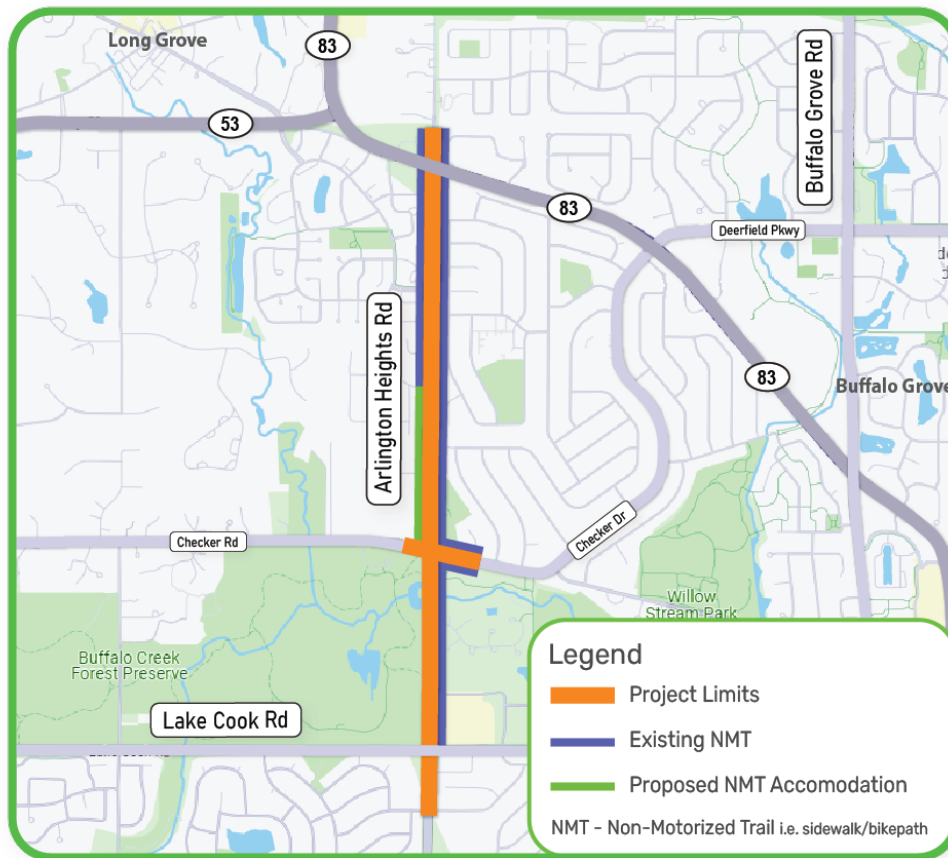

Please use caution when traveling through the area to support a safe work environment.
