

## Construction Update - August 15, 2025

Progress continues on Arlington Heights Road as the contractor and crews advance work along the east side of the corridor.

This week, the contractor installed storm sewer from Carlton Drive to Lake Cook Road while continuing pavement removal and material crushing as needed. The contractor also placed new aggregate base from Alden Drive to and Bernay Drive.

Next week, storm sewer installation is anticipated to be complete and road work will continue.

*The first layer of the new roadway is being laid*

### TRAFFIC IMPACTS ALONG ARLINGTON HEIGHTS ROAD

In the next two weeks, road work will commence at the IL-83 intersection and on Checker Road east of Arlington Heights Road.

During this time the following traffic patterns will be in place:

- The existing right-turn lane from northbound Arlington Heights Road to eastbound IL-83 will be moved up to the intersection. Right-turning traffic must use the through lane to access the intersection. This configuration will last several weeks to allow time for new concrete pavement to be poured

If the current schedule holds, Monday, August 25th, and Tuesday, August 26th, weather permitting, Checker Road east of Arlington Heights Road will be closed.

Please refer to the information below:

- The closure will take place between 7:00am - 5:00pm
- Traffic will be directed by a flagger north or south on Arlington Heights Road to go around the closure
- Checker Road will be re-opened to two-way traffic at the end of working hours every day.

**Please utilize caution when driving through the area and be aware of your surroundings at all times!**
