
Construction Update - July 16, 2025

CHECKER ROAD REOPENS

Recently, West Checker Road was re-opened to traffic and the detour was removed.

All work in Stage 2 has officially been completed and traffic has switched over to moving through the newly constructed lanes on the west side of Arlington Heights Road.

Last week, the contractor broke and removed pavement near Checker and Lake Cook roads. In the coming weeks, pavement removal will continue as well as storm sewer installation on the east side of Arlington Heights Road.

Please continue to use caution when traveling through the area—some lanes will have temporary slopes to bridge elevation differences between new and existing pavement.

Traffic moving through the western lanes of Arlington Heights Road
