

## Construction Update - August 1, 2025

### STAGE 3 TRAFFIC CONTINUES - DRIVERS STAY ALERT

Last week, the contractor completed pavement removal and storm sewer installation from IL Route 83 to Heritage Place. These improvements are bringing critical storm sewer infrastructure upgrades to the community. This week, progress will continue south of Carlton Drive towards Lake Cook Road.

Traffic remains in the Stage 3 configuration on the west side of Arlington Heights Road. Drivers traveling on Arlington Heights Road at IL Route 83 must go through the intersection, turn left, or turn right from the single lane available to them. There are no additional turn lanes available at this time, so please use caution and watch for stopped, turning vehicles.

*Pavement removal on the east side of Arlington Heights Road*

Thank you for your patience while we work to deliver these critical improvements to the community!

**Please continue to use caution when traveling through the area—some lanes will have temporary slopes to bridge elevation differences between new and existing pavement.**
