

## Construction Update - June 19, 2024

### CHANGE IN TRAFFIC

Beginning Tuesday June 18th, Arlington Heights Road will be reduced to one lane in each direction and Stage One of construction will begin.

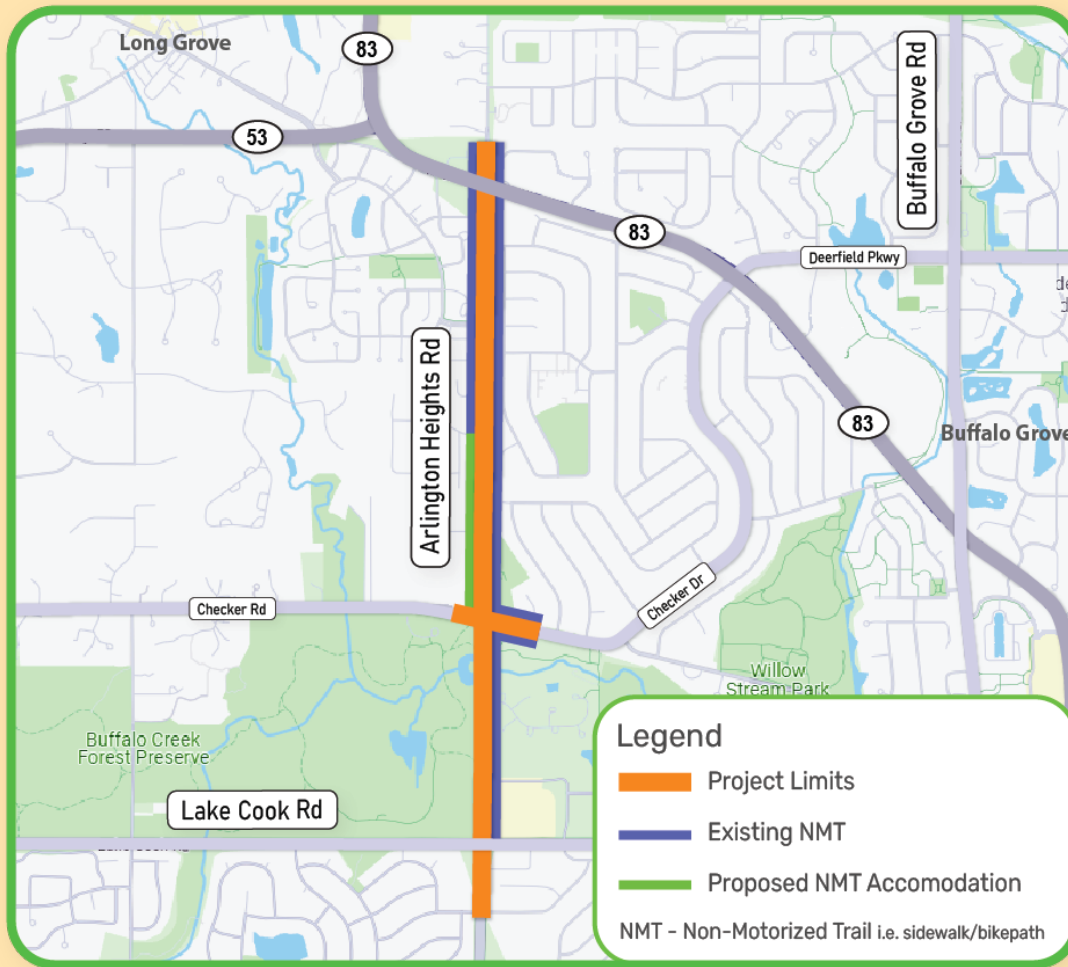

In preparation for the start of construction, the contractor has installed temporary traffic signals throughout the project area. Construction will kick-off with roadway median removals for the new storm sewer improvements that are being implemented as part of the project.

The contractor strongly advises drivers to take alternate routes and for drivers to exercise caution when traveling through the project area.

*Temporary traffic signals being installed on Checker Road*

Construction on Arlington Heights Road starts north of IL-83 and continues southbound past Lake Cook Road and will impact traffic flow until the fall 2025.
