

Construction Update - June 20, 2025

FREMONT STREET NOW OPEN!

Recently, Stage 2 paving was completed, bringing the west side of the project one step closer to its final surface elevation and there have been several significant changes in traffic flow throughout the entire project area.

- **Traffic Shift on Checker Road:** Eastbound traffic on Checker Road will be shifted to the newly paved north lane of Checker Road. This will allow reconstruction of the south lane to begin.
- **Fremont Street Now Open:** Only southbound access to Arlington Heights Road from Fremont Street. This is a permanent traffic configuration.
- **Lane Open at Lake Cook Road:** The right turn lane southbound at Lake Cook Road has re-opened and improved traffic flow through the site.

Next week, the contractor will install new sidewalk and lighting on the west half of the project. These improvements will support enhanced mobility and safety throughout the area!

Please use caution when traveling through the area to support a safe work environment.

Pavement removal on the south side of Checker Drive
