## Construction Update - October 8, 2025

---

### PAVEMENT OPERATIONS IN FULL SWING

Over the last two weeks, the contractor has completed all fine grading of aggregate to prepare for the final paving of the east lanes of Arlington Heights Road!

This week, paving operations on the eastern lanes have made significant progress and the second layer of roadway is anticipated be completed next week, weather permitting.

In the coming weeks, the contractor will finish the underground work for the new traffic signal and street lights. The contractor will also restore the east parkways as sidewalk improvements are finalized.

Traffic will continue in the current shifted configuration for construction activities. Motorists, please be alert and drive with caution when traveling throughout the area.

**Thank you all for your patience as the contractor moves throughout the project area!**

*Beautiful fresh asphalt along Arlington Heights Road*
