

Construction Update - September 10, 2025

PROGRESS CONTINUES IN STAGE 3

We're excited to share that the road base is now complete! With this major milestone behind us, crews are shifting their focus to the curb in advance of paving. This week's accomplishment include new curb, sidewalk and driveways on Checker Drive and the fully prepped aggregate base for new curb north of Checker Drive.

This week, the aggregate base will be graded and curb installation will continue along the east side of Arlington Heights Road. Electricians will also be installing the underground conduit for the new street lights and traffic signals throughout the project area.

We appreciate your continued patience and support as we work to brighten Arlington Heights Road and bring this transformative project to life.

New sidewalk and driveway installation along Checker Drive
