

Construction Update - March 5, 2026

ARLINGTON HEIGHTS ROAD STARTS TO WARM UP

While work remains weather dependent, the contractor has taken advantage of the mild weather to maximize progress ahead of final completion.

Last week, crews began to prepare the center medians for topsoil placement. Traffic remains in the Stage 4 configuration, with drivers using the outside lanes.

Road work is anticipated to be completed this Spring! We are so excited to reopen Arlington Heights Road to the community to provide a more accessible road for all users. Thank you for your continued patience throughout construction!

Prepping medians for topsoil along Arlington Heights Road!
